Sociocultural Theory and the Pedagogical Imperative in L2 Education - James P. Lantolf 2014-03-05 Explicating clearly and concisely the full implication of a praxis-oriented language pedagogy, this book argues for an approach to language teaching grounded in a significant scientific theory of human learning—a stance that rejects the consumer approach to theory and the dichotomy between
theory and practice that dominates SLA and language teaching. This approach is based on Vygotsky’s sociocultural theory, according to which the two activities are inherently connected so that each is necessarily rooted in the other; practice is the research laboratory where the theory is tested. From the perspective of language education, this is what is meant by the ‘pedagogical imperative.’

Sociocultural Theory and the Pedagogical Imperative in L2 Education • Elaborates a new approach to dealing with the relationship between theory and practice—an approach grounded in praxis—the dialectical unity of theory and practice • Presents an analysis of empirical research illustrating praxis-based principles in real language classrooms • Brings together cognitive linguistics and sociocultural theory – the former provides the theoretical knowledge of language required of praxis and the latter furnishes the theoretical principles of learning and development also called for in a praxis approach • Offers recommendations for redesigning teacher education programs Its timely focus on the theory-practice gap in language education and its original approach to bridging it put this book at the cutting edge of thinking about Vygotskian sociocultural theory in applied linguistics and SLA.

TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy-Crawford, Jenifer 2021-09-17 The field of TESOL encompasses English teachers who teach English as an additional language in English-dominant countries and those teachers who teach English as a foreign language in countries where a language other than English is the official language. This range of educators teaches English to
children, adolescents, and adults in primary, secondary, post-secondary, popular education, and language academies or tutoring centers. The diversity of learners and contexts within the TESOL field presents a unique opportunity for educators to address varied educational and societal needs. This opportunity calls for TESOL educators who can support the whole learner in a range of contexts for the greater social good. There is an urgent need for readily reproducible and step-by-step research-based practices and current standards in TESOL that bridge the gap between critical scholarship and equitable teaching practices. This book would serve as a critical addition to current literature in TESOL. TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy is an essential reference that provides practical and equitable step-by-step guides for TESOL educators through the current best practices and methods for effective and equity-minded teaching, critical inquiry, and transformative advocacy. This book is of particular value as it bridges theories to practices with a critical look at racial and social justice in English language teaching, which will lead to the integration of social justice-focused practice across the new curriculum. Covering topics such as integrated language instruction, equity and inclusivity, critical consciousness, and online learning, this text is essential for in-service and pre-service TESOL educators, education students, researchers, administrators, teacher educators, and academicians.

**Fostering a Relational Pedagogy**- 2018-11-01 Through critical, qualitative, creative, and arts-integrated approaches, this collection seeks to advance teacher self-study and, through it, transformative praxis.

Teaching World Languages for Social Justice - Terry A. Osborn 2006-08-15 Teaching World Languages for Social Justice: A Sourcebook of Principles and Practices offers principles based on theory, and innovative concepts, approaches, and practices illustrated through concrete examples, for promoting social justice and developing a critical praxis in foreign language classrooms in the U.S. and in wider world language communities. For educators seeking to translate these ideals into classroom practice in an environment dominated by the current standards movement and accountability measures, the critical insights on language education offered in this text will be widely welcomed. The text is designed as a sourcebook for translating theory into practice. Each chapter includes the theoretical base, guidelines for practice, discussion of the relationship to existing practices in the world language classroom, suggestions for activity development (which can be integrated into a professional portfolio), illustrative examples, questions for reflection, and additional suggested readings. Teaching World Languages for Social Justice is a primary or supplementary text for second and foreign language teaching methods courses and is equally appropriate for graduate courses in language education or educational studies.

Pedagogy and Praxis in the Age of Empire - Peter McLaren 2007-01-01 Written by two leading international exponents of critical pedagogy, this book is a pioneering attempt to create a Marxist humanist and feminist pedagogy for the new century.

Freireian Pedagogy, Praxis, and Possibilities - Stanley S. Steiner 2004-11-23 Scholar, activist, and educator Paulo Freire was one of the first thinkers to fully appreciate the relationships between education, politics, imperialism, and liberation. This volume is a testament to the works of Paulo Freire in the field of Education as well as the life of the man: a “story of courage, hardship, perseverance, and unyielding belief in the power of love.” In this comprehensive collection, prominent intellectuals including Noam Chomsky and Donald Macedo reflect on Freire’s "politics of liberation" and add important new dimensions to the revolutionary, innovative ideas that Freire bequeathed to a generation much in need.

Critical ELT in Action - Graham Crookes 2013 Uniquely bridging theory and practice, this text introduces and overviews the various domains associated with the term critical pedagogy in the field of TESOL/ELT. Critical pedagogy addresses concepts, values, curriculum, instructional and associated practices involved in language teaching for social justice. Bringing critical pedagogy to classroom practitioners in a practical and comprehensible way, the text is designed to help teachers get started on critically grounded work in their
own teaching. Features - Illustrative textbook extracts offer direct and quick illustration of what this perspective might look like in practice - Coverage of feminist and anti-racist pedagogies; sexual identity, oppression and pedagogy; peace and environmental education; -and their implications for second-language teaching - Historical background - Theoretical background on language and learning - Consideration of applicability of critical/radical educational concepts and traditions to non-Western cultural contexts (critical English as a foreign language) - A focus on issues of compromise and resistance This original, timely, and informative text is ideal for any course on methods and approaches in TESOL. Contextualizing College ESL Classroom Praxis - Laurence N Berlin 2012-12-06 Contextualizing College ESL Classroom Praxis: A Participatory Approach to Effective Instruction provides pre-service and in-service teachers with a model for engaging in effective instruction with the variety of students encountered in college English as a second language or foreign language classrooms. Along with the model, the text is designed to help readers develop the tools to use it within a participatory approach. This approach, based on the principles of Paulo Freire's critical pedagogy, is combined with multicultural education and the general tenets of a communicative approach to language teaching. From the philosophical to the theoretical to the practical, these strands are combined into a cohesive whole. The underlying premise is that the best way to develop an understanding of a participatory approach is to engage in it. Throughout the book, readers are asked to apply problem-posing--a learning process that begins with naming issues, reflecting on them and possible solutions, and acting upon one's ideas. Questions addressed include: *What is the nature of process over product? *Is a new definition of effective instruction necessary? *What are the factors that can affect second language acquisition? *What do teachers believe about effective language instruction? *What do students believe about effective language instruction? *What makes pedagogy effective? *How do teachers and students relate in the classroom? *What does instruction mean for students? *How can effective praxis be adapted to various contexts? Each chapter includes Pre-Reading Questions, Post-Reading Questions, a topic for a Reflective Journal, and Follow-Up Activities. These provide opportunities to enhance comprehension of the material, to co-construct new knowledge with classmates, and to review personal beliefs and ideas in an effort to modify or reinforce them in one's own developing model for effective language instruction.

The Praxis of English Language Teaching and Learning (PELT) - Mark Vicars 2015-06-17 This edition of Critical New Literacies: The Praxis of English Language Teaching and Learning (PELT) begins with an examination of bricolage as a way to engage in critical research in TEFL/TESOL teaching and research. The volume considers the quality of 'encounter' needed in the global and intercultural classroom. The authors address validity, reliability and an authentic need for research which has at its heart ethical practice. Disenfranchisement of the co-participants in research, which is usually not considered, is reviewed in the volume. The manner in which quantitative methods can be used to deliberate on “praxis” is also explored. Self-reflexive practice is at the heart of EFL research and remains central to this volume. The authors are all praxis based research practitioners and make the work of research accessible, equitable and socially just. This series has at its core the need to state that equitable research is about shared authority and shared power. These nine authors address the periphery and in doing so contest the way the world sees research. The PELT series has a disruptive quality as its raison d’etre and Steinberg et al are asking us to revisit; review and re-assess the notion of our life work as researchers in EAL, ESL, TEFL and TESOL. These nine authors are all global leaders in research inquiry and the provocations offered here are unified in the parading by questioning the more traditional field of research inquiry. The ethic of care and courage is encapsulated in this edition.
Feminism and the Classroom Teacher - Amanda Coffey 2002-11-01 How has feminism influenced contemporary educational practices? Is feminism relevant to today's teachers? Feminism and the Classroom Teacher undertakes a feminist analysis of the work and everyday realities of the school teacher, providing evidence that feminism is still relevant as a way of thinking about the social work and as a lived reality. Providing a unique contribution to the literature in the area of gender and education, the authors' objective is to articulate the educational discourses of gender - how gender is constructed, performed and sustained through discourse and material practices. The overall aim of the book is to ascertain the extent to which women teachers specifically, and the feminist project more generally, have contributed to theoretical understandings and practical accomplishments of teaching.

Literary Praxis - Piet-Hein van de Ven 2011-11-16 Literary Praxis: A Conversational Inquiry into the Teaching of Literature explores the teaching of literature in secondary schools. It does this from the vantage point of educators in a range of settings around the world, as they engage in dialogue with one another in order to capture the nature of their professional commitment, the knowledge they bring to their work as literature teachers, and the challenges of their professional practice as they interact with their students. The core of the book comprises accounts of their day-to-day teaching by Dutch and Australian educators. These teachers do more than capture the immediacy of the here-and-now of their classrooms; they attempt to understand those classrooms relationally, exploring the ways in which their professional practice is mediated by government policies, national literary traditions and existing traditions of curriculum.
and pedagogy. They thereby enact a form of literary ‘praxis’ that grapples with major ideological issues, most notably the impact of standards-based reforms on their work. Educators from other countries then comment on the cases written by the Dutch and Australian teachers, thus taking the concept of ‘praxis’ to a new level, as part of a comparative inquiry that acknowledges the richly specific character of the cases and resists viewing teaching around the world as though it lends itself unproblematically to the same standards of measurement (as in the fetish made of PISA). They step back from a judgmental stance, and try to understand what it means to teach literature in other educational settings than their own. The essays in this collection show the complexities of literature teaching as a form of professional praxis, exploring the intensely reflexive learning in which teachers engage, as they induct their students into reading literary texts, and reflect on the socio-cultural contexts of their work.

**Mapping Queer Space(s) of Praxis and Pedagogy**-Elizabeth McNeil 2017-11-14 This book explores intersections of theory and practice to engage queer theory and education as it happens both in and beyond the university. Furthering work on queer pedagogy, this volume brings together educators and activists who explore how we see, write, read, experience, and, especially, teach through the fluid space of queerness. The editors and contributors are interested in how queer-identified and -influenced people create ideas, works,
classrooms, and other spaces that vivify relational and (eco)systems thinking, thus challenging accepted hierarchies, binaries, and hegemonies that have long dominated pedagogy and praxis.

Pedagogy of the Oppressed—Paulo Freire 1972

Considering Emotions in Critical English Language Teaching—Sarah Benesch 2013-03-01 Groundbreaking in the ways it makes new connections among emotion, critical theory, and pedagogy, this book explores the role of students’ and teachers’ emotions in college instruction, illuminating key literacy and identity issues faced by immigrant students learning English in postsecondary institutions. Offering a rich blend of, and interplay between, theory and practice, it asks: How have emotions and affect been theorized from a critical perspective, and how might these theories be applied to English language teaching and learning? What do complex and shifting emotions, such as hope, disappointment, indignation, and compassion, have to do with English language teaching and learning in the neoliberal context in public universities? How might attention to emotions lead to deeper understanding of classroom interactions and more satisfying educational experiences for English language teachers and students? These questions are addressed not just theoretically, but also practically with examples from college classes of assigned readings, student writing, and classroom talk in which
various emotions came into play. Thought-provoking, accessible, and useful, this is a must-read book for scholars, students, and teachers in the field of English language teaching.

**Critical Youth Research in Education** Arshad Imtiaz Ali 2020-04-23 Critical studies of youth play an increasingly important role in educational research. This volume adds to that ongoing conversation by addressing the methodological lessons learned from key scholars in the field. With a focus on “the doing” of critical youth studies in ways that center praxis and relational care in work with youth and their communities, the volume showcases scholars discussing their research and reflecting on the practical strategies they have used to operationalize their conceptions of knowledge in youth-centered research projects. Each chapter addresses the research features, challenges, tensions, and debates of the project; engagement with communities; and relationality, reciprocity, and responsibility to participants. The focus throughout is on qualitative approaches that are humanizing, anti-colonial, and transformative.

**The Afrocentric Praxis of Teaching for Freedom** Joyce E. King 2015-08-27 The Afrocentric Praxis of Teaching for Freedom explains and illustrates how an African worldview, as a platform for culture-based teaching and learning, helps educators to retrieve African heritage and cultural knowledge which have been historically discounted and decoupled from teaching and learning. The book has three objectives: To exemplify how each of the emancipatory pedagogies it delineates and demonstrates is supported by African worldview concepts and parallel knowledge, general understandings, values, and claims that are produced by that worldview To make African Diasporan cultural connections visible in the curriculum through numerous examples of cultural continuities—seen in the actions of Diasporan groups and individuals—that consistently exhibit an African worldview or cultural framework To provide teachers with content drawn from Africa’s legacy to humanity as a model for locating all students—and the cultures and groups they represent—as subjects in the curriculum and pedagogy of schooling This book expands the Afrocentric praxis presented in the authors’ “Re-membering” History in Teacher and Student Learning by combining “re-membered” (democratized) historical content with emancipatory pedagogies that are connected to an African cultural platform.

**Detournement as Pedagogical Praxis** James Trier 2014-09-11 The Situationist International (SI) was a Paris-based artistic and political avant-garde group that formed in 1957, went through three distinct phases during its existence, and dissolved in 1972. In 1967, SI leader Guy Debord published his book The Society of the Spectacle, which presents his theory of how “the Spectacle” (i.e., the Capitalist system in its totality) works endlessly (though not always successfully) to transform people into spectators whose sole purposes are to consume commodities and to live de-politicized, passive, isolated, and contemplative lives. To challenge and subvert “the
Spectacle,” Debord and his SI associates theorized and practiced the anti-spectacular critical art they called “detournement,” which entails reusing existing artistic and mass-produced elements to create new combinations or ensembles. As Debord wrote in 1956, detournement has the potential to be “a powerful cultural weapon in the service of real class struggle.” In this edited book, the authors contribute chapters about how they created their own detournements and used them as central audio-visual texts in critical projects that they designed and carried out in a variety of pedagogical situations. Most of the projects involved preservice teachers in teacher education courses, and the anti-spectacular purposes include challenging Hollywood’s problematic representations of Native Americans, subverting the racist stereotypes of Latin@s in a popular children’s book, and critiquing the neoliberal agenda of the charter school movement. This book offers readers detailed accounts of pedagogical projects that can serve as examples of the critical possibilities of detournement.

**New Digital Worlds**-Roopika Risam 2018-11-15 The emergence of digital humanities has been heralded for its commitment to openness, access, and the democratizing of knowledge, but it raises a number of questions about omissions with respect to race, gender, sexuality, disability, and nation. Postcolonial digital humanities is one approach to uncovering and remedying inequalities in digital knowledge production, which is implicated in an information-age politics of knowledge. New Digital Worlds traces the formation of postcolonial studies and digital humanities as fields, identifying how they can intervene in knowledge production in the digital age. Roopika Risam examines the role of colonial violence in the development of digital archives and the possibilities of postcolonial digital archives for resisting this violence. Offering a reading of the colonialist dimensions of global organizations for digital humanities research, she explores efforts to decenter these institutions by emphasizing the local practices that subtend global formations and pedagogical approaches that support this decentering. Last, Risam attends to human futures in new digital worlds, evaluating both how algorithms and natural language processing software used in digital humanities projects produce universalist notions of the "human" and also how to resist this phenomenon.

**Pedagogy, Education, and Praxis in Critical Times**-Kathleen Mahon 2020-10-22 This book critically explores urgent questions that researchers, educators, and policy makers need to consider and address in order to better our understanding and capacity to transform education. Focusing on areas that underpin the empirical, theoretical, and strategic research of the Pedagogy, Education and Praxis (PEP) International Research Network, it discusses the following topics: the nature of educational praxis; research approaches that facilitate praxis and praxis development; changing cultural, social, political and material conditions affecting the educational practices of teachers; and how good professional practice in teaching, leading, and professional learning are understood and experienced. Presenting findings emerging from the Pedagogy, Education and Praxis research, the book raises new questions and offers new ways of thinking.
about the identified issues and themes in light of current educational concerns and the prevalence of neoliberal conditions being experienced in educational settings around the globe. It provides supporting evidence and illustrative examples to help readers understand important concepts, situations, and concerns, and brings together intellectual and cultural-historical traditions that, when considered in relation to each other, open up critical opportunities and ideas orienting readers towards future educational transformation.

**Reinventing Paulo Freire**-Antonia Darder 2017-06-14 One of the most influential critical educators of the twentieth century, Paulo Freire challenged those educational inequalities and conditions of injustice faced by oppressed populations. In this new edition of Reinventing Paulo Freire, Antonia Darder re-examines his legacy through reflections on Freirean pedagogy and the narratives of teachers who reinvent his work. The fully revised first part provides important historical, political, and economic connections between major societal concerns and educational questions raised by Freire and their link to the contemporary moment, including questions tied to neoliberalism, coloniality, and educational inequalities. At the heart of the book is a critical understanding of how Freire’s pedagogy of love can inform, in theory and practice, a humanizing approach to teaching and learning. Powerful teacher narratives offer examples of a living praxis, committed to democratic classroom life and the emancipation of subaltern communities. The narratives clearly illustrate how Freire’s ideas can be put concretely into practice in schools and communities. These reflections on Freirean praxis are sure to spark conversation and inspiration in teacher education courses. Through a close theoretical engagement of Freire’s ideas and key insights garnered from lived experiences, the book speaks to the ways Freire can still inspire contemporary educators to adopt the spirit of liberatory pedagogy. By so doing, Reinventing Paulo Freire is certain to advance his theories in new ways, both to those familiar with his work and to those studying Freire for the first time.

Praxis II Speech-Language Pathology (0330) Practice Questions: Praxis II Practice Tests & Exam Review for the Praxis II: Subject Assessments-Praxis II Exam Secrets Test Prep 2014-03-31 Praxis II Speech-Language Pathology Practice Questions are the simplest way to prepare for the Praxis II Speech-Language Pathology Test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. Our Praxis II Speech-Language Pathology Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our Praxis II Speech-Language Pathology Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.
